*If there are birthdays wrongly indicated, we appreciate and welcome corrections as we based our info from the church database.*

The Pastoral Team would like to extend their sincere thanks and deep appreciation for the various gifts and tokens they received during the Pastors Appreciation Sunday from a number of members and officers, some of whom would rather remain anonymous that they just left their gifts on top of our tables while the pastors were all inside the church. Heaps of thanks also to the generous donors for the special lunch for the Council and other officers and pastors families last Sunday, including the one who donated the lechon that was enjoyed by everyone. God bless you all!

## Sixth Sunday After Epiphany

As we continue to observe Membership and Leadership Development Month, we give special focus this time on the need for the right kind of relationship that should characterize and define every member and leader of the church of our Lord Jesus Christ. For Jesus, relationship of members with each other and leaders with their constituents should always be defined by love. It is a loving and accepting attitude that should be extended even to one's enemies, "love your enemies," says Jesus. For leaders, their relationship with their constituents should mainly be characterized by humility, openness, responsibility, accountability and transparency.

We reiterate our call to all those who are in the ages 11-13 who want to join our communicants class which start in March 2, 2019. Please register with Rev. January Alpuerto. Those who wish to apply for the governing membership status, you may also enlist with Rev. Alpuerto for the membership orientation program. Just fill up the application form that is also printed in this issue.

**"Don't be a statistic!"** **By: Nenita P. Tayko**  
 This was a stern but valuable advice given to us ( 3rd year student nurses in Silliman University College of Nursing) back in the late 1950s, in our Communicable Disease Nursing class by our professor. He added, "Have yourselves vaccinated ( and later on your families) so you would not be included in the statistics ( mortality and morbidity) reported for that disease."
